MBDA PERFORMANCE METRICS

Contracts and capital are reported at face value and do not reflect multiplier effects or discounting.

Dollar value of contracts reflects the total dollar value of successfully awarded contracts and/or the total principal value of executed sales/delivery contracts of services/products/intellectual rights and/or other binding financial considerations secured by clients, with the assistance of MBDA.

Dollar value of capital represents the principal value of approved loans, equity financing, bonds, leases (property and equipment), and assets under management or other binding financial agreements secured by clients of the project, with the assistance of MBDA. Eligible financial transactions are those that have a specific dollar value, and which expand the client's capital base/operations, or produce some other direct commercial benefit for the client firm.

Jobs created and retained includes the number of new full-time and/or part-time positions reported on the client's payroll; and positions MBDA clients would have eliminated without the contract and/or financing obtained with the help of MBDA.

Return on taxpayer investment is computed by dividing the total value of FY 2015 contracts and capital by the the Agency's FY 2015 appropriation of \$33,000,000.
