

Introduction To Estimating And Cost Control Workshop

Thursday, April 21, 2016 2:00pm-4:00pm

SoBRO Center, 555 Bergen Ave, 3rd Floor Bronx, NY 10455

About the Presenter:

After graduating as a Structural Engineer, Rafael Mellace, Senior Estimator at Joy Construction Corporation, has worked in both office and field assignment in different contracting companies, ranging from small minority subcontractors to fortune 500 companies. He is a multi-lingual professional with extensive hands-on experience in estimating, project management, scheduling, and field supervising. He has also worked as a consultant for small local businesses in Metro Area and Westchester County helping them to develop systems for successfully competing with larger contracts, and has obtained recognition from architects, engineers, and general contractors he has worked within the industry.

What You Will Learn:

- Manual and Electronic Methods of Cost Estimating
- Cost Control
- Resource Allocation
- Scheduling
- Job Coordination
- Presentation of Technical Documentation
- Requisition for Payments
- Shop Drawings and more.....
